

# Lumina 2

The Lumina 2 is a display light designed specifically for use on banner stands. It is the perfect way to light your banner.

## Main Features:

- Overhead 50Watt low voltage banner stand light with quarter circle stem, 2.5m of cable and AMP connector
- 60VA transformer supplied  
Input: AC 120V 60Hz 0.55A  
Output: AC 12V 60W Max.
- Replacement lamp: MR16 50Watt
- Integral bulldog clip fitting suitable for 16mm poles
- Weight: 0.4kg approx (includes cables and transformer)

#### To Remove Lamp:

1. Turn off/unplug fixture and allow to cool before replacing lamp. Lamp gets hot quickly. Do not touch hot lamp or shade.
2. Remove the protective shield.
3. Push the lamp towards one end of the lamp-holder which serves as a spring to hold lamp in place. When the other end of the lamp is clear of the holder, lift the lamp out of fixture.

#### To Fit or Replace Lamp:

1. Take the lamp out of the box taking care not to touch the lamp with your bare fingers. Oil from skin can damage lamp. Use a soft cloth when grasping lamp. Grasp the lamp with the thin wrapper covering and place one end of the bulb against the spring section of the lamp-holder and push it toward the spring side. ATTENTION: Insert lamp in the neutral lamp-holder first (see marking on fixture.)
2. As the other end of the lamp clears the opposite end of the lamp-holder, insert the end down into the lamp-holder and release the tension on the spring end. Both ends of the lamp must come in contact with both ends of the lamp-holder.
3. IMPORTANT: Reinstall protective shield after changing lamp.

#### Optional:

**LUMINA SPT  
CASE**   
SPT-CASE

- EVA semi-rigid lighting case
- foam-lined padded compartments
- holds two Lumina lights & power supply
