

FF-ST 1.25" Standard finger open style FlipUp frame

Shown is the standard "**shallow**" **bottom piece** that will hold graphics from a **thin sheet up to .125" thick**. Let us know the total thickness of materials to be put in the frame so that we cut miters for best fit.

FF-ST 1.25"
Overlaps graphic by 1/2"~.50"

Shown is deep **bottom piece** that is used to hold graphics over .125" up to .250" thick. Top piece is same, only bottom is different.

FF-ST 2.50"

WIDE versions are especially nice for those who prefer a "wider" frame face.
